Product description

Chaos Space Marines Abaddon the Despoiler

This kit brings Abaddon to life in magnificent detail, drawing on three decades of art and lore to create a definitive representation of this iconic character. No detail has been spared – with baroque armour, intricate mechanical detail and grisly trophies, it's a pleasure to paint and will immediately stand out from the rest of your collection. Even the base has a wealth of sculpted detail to help show Abaddon in all his dark glory!

You'll even be able to customise your Abaddon with optional extras. You can model yours with or without the cape depending on your preference, while a choice of three heads is provided to ensure that your model fits your interpretation of the Warmaster. One features Abaddon's classic grimace, another bears the likeness of Horus, while the last features an ominous rebreather.

This kit is supplied in 31 plastic components, and comes with a 60mm round base.
