Product description

Death Guard Plague Marines

This multi-part plastic kit contains the components necessary to assemble a 7-man squad of Plague Marines. Each is posed dynamically, with the usual Death Guard accoutrements – cracked, rotting armour revealing grasping tentacles, severed heads displayed proudly on belts, backpacks sloshing with unnatural diseases and pipework leading from rebreathers to Nurgle knows what foul concoctions. There's an Icon of Despair included, so your unit can feature an icon bearer.

These models feature a wide range of weapons and heads, many of which are designed to fit a specific model – there are 8 boltguns, 4 plague knives, 2 bubotic axes, a blight launcher, a plasma gun, a meltagun, a plaguebelcher, a heavy plaguespewer (with backpack), a mace of contagion, a great plague cleaver, a plague flail, a plasma pistol and a bolt pistol. There are 2 weapon options available for the unit Champion: a specific plaguesword and power fist, and there are a total of 16 bare and helmeted heads. 2 specific arms are included for a model holding a blight grenade, with one hand pulling the pin.

This kit comes as 146 components, and is supplied with 7 Citadel 32mm Round bases.
