Producer code	99120108035
EAN	5011921131181
Manufacturer	Games Workshop

Product description

Penitent Engines

Penitent Engines charge towards the foe heedless of danger, knowing that only in death, theirs or the enemy's, can absolution be earned. The arms of the engine, mounted with enormous flamers, blaze a trail of fiery destruction as it thunders forwards. Upon reaching the enemy, the chemical and synaptic inputs pumped into the pilot are altered, causing them to see their own face in the faces of their foes. Thrashing at those before it, each a reflection of their unfathomable guilt, they rampage through the enemy's battle lines leaving death and carnage in their wake. Some engines bear adamantine-toothed buzz-blades that are capable of cleaving through plated tank armour, while others mangle flesh and pulverise bone with lashing swings of their multi-headed flails.

Each Penitent Engine is equipped with a pair of heavy flamers and a choice of penitent buzz-saws or penitent flails. Alternatively, any Penitent Engine can be assembled as a Mortifier, or as a fully-encased Anchorite, which are equipped with heavy bolters instead of heavy flamers.

The kit comprises 126 components and includes all of the weapons and assembly options for all three variants. The model comes supplied with 2x Citadel 50mm Round Bases.
