Product description

Retributor Squad

Among the majority of the Orders Militant it takes long years to advance to the respected ranks of the Retributor Squads. The Sisters that comprise these warrior bands are amongst the most level-headed, imperturbable and bloodily determined of all their kind. They are also amongst each Order's finest sharpshooters. It is well that all of this is so, for to the Retributors falls the weighty responsibility of providing targeted fire support for their advancing Sisters. In order to best fulfil this role, each squad of Retributors is armed with an array of heavy bolters, multi-meltas and heavy flamers that bring their firepower in line with that of a battle tank. Combined with the Sisters' expert eye for target prioritisation, identifying enemy weak points and optimising firing solutions, these devastating armaments make each squad of Retributors a terrifyingly potent battlefield asset.

This kit builds five Retributors and two Armorium Cherubs. The Retributors can be assembled with your choice of heavy bolter, heavy flamer or multi-melta (two of each weapon are included in the set), while the Retributor Superior can be armed with a variety of ranged and melee weapons.

This set is supplied in 115 plastic components and contains 5x Citadel 32mm Round Bases and 2x Citadel 25mm Round Bases. An Adepta Sororitas Transfer Sheet is also included.
