### Product description

## Adeptus Custodes Vertus Praetors

This multi-part plastic kit contains the components necessary to assemble a squad of 3 Vertus Praetors. Astride their Dawneagle jetbikes, they wear somewhat less bulky armour than the other Adeptus Custodes warriors, in order to maintain lightness – while they are still protected by auramite chest plates, shoulder pads and helmets, they wear woven trousers, boots and robes. The armour that they do wear is covered in finely sculpted sigils of the Emperor, with Imperial eagles, lightning bolts, gemstones and filigree adorning every surface, with the jetbikes they pilot featuring similar details on the aggressively-shaped cowling. The Praetors carry interceptor lances and misericordia, while the Dawneagle jetbikes are armed with a choice of hurricane bolters or salvo launcher – whichever you choose, they're visible at the front of the vehicle, with the engine and weapon feeds visible in gaps in the cowling. The controls feature a large screen, with plenty of dials and buttons. The kit can also make a Shield-Captain, who is distinguished by his bare head.

This kit comes as 111 components, and is supplied with 3 Citadel 75mm Oval stands, with flying stems.
