Product description

Adeptus Mechanicus Kataphron Breachers

These miniatures truly capture the techno-centric nature of the Adeptus Mechanicus; only half a head and a part of their torso remains human. Included are three track assemblies (with optional armour and mud guards for Breachers), three sets of Breacher heads and torso armour, three interchangeable exhausts and a HUGE array of weapons: arc rifles, torsion cannons, arc claws, hydraulic claws, plasma culverin assemblies, heavy grav cannon assemblies, phosphor blaster assemblies and three cognis flamer assemblies. Twenty-four weapon options in total!

This multi-part plastic kit contains an impressive 157 components, with which you can make three Battle Servitors, either Kataphron Breachers or Kataphron Destroyers. Supplied are three Citadel 60mm Round Bases.
