Product description

Adeptus Mechanicus: Serberys Sulphurhounds

This kit can alternatively be used to build a unit of Serberys Raiders instead, meaning that regardless of which unit you assemble, you'll end up with plenty of spare components for customising your collection.

This kit is supplied in 103 plastic components with which to assemble three models, each supplied with a Citadel 60mm x 35mm Oval Bases. Also included is an Adeptus Mechanicus transfer sheet.
