Product description

Alarielle the Everqueen

Everqueen burns with a fierce need for vengeance, and her enemies would do well to run. This multi-part plastic kit contains all the components needed to assemble Alarielle the Everqueen, riding her gigantic wardroth beetle – a living battering ram covered in moss, fungi and decorated with soul amphorae and other trinkets. She wields the Spear of Kurnoth in one hand, and her other arm ends in the dreaded Talon of Dwindling. 79 components in total, with an appropriately huge Citadel 160mm Round base.
