## Product description

# Alpharius, Primarch of the Alpha Legion

Alpharius is here clad in the Pythian Scales, a set of unique and beautiful armour. Alpharius is well-equipped for battle, with a grenade pack and master-crafted plasma blaster on his belt, and the Pale Spear in his hands. His scenic base includes an unfortunate Space Marine attempting to escape the primarch's wrath.

This kit contains 22 resin components, and is supplied with a 40mm round gaming base and a 60mm scenic base.

Rules for Alpharius in your games of Warhammer: The Horus Heresy can be found in Liber Hereticus – Traitor Legiones Astartes Army Book. This miniature is supplied unpainted and requires assembly – we recommend using Citadel paints.

This resin modelling kit is not a toy – it is a collectible item and construction should only be undertaken by expert Warhammer hobbyists aged 15 years and over.
