Product description

Arcane Journal: Kingdom of Bretonnia

This supplement takes an in-depth look at the Kingdom of Bretonnia, exploring the traditions and beliefs of this realm of chivalrous knights and humble peasants. Used in conjunction with Warhammer: the Old World – Forces of Fantasy, this book provides additional rules and content, allowing you to use your collection of bold Bretonnian heroes in new and exciting ways.

Within this 48-page supplement book, you will find:

Chivalry & Heraldry: A comprehensive look at the tenets and rules of the Code Chivalric, together with an explanation of the rules of heraldry, lavishly illustrated with colour examples.

War in the Border Princes: A detailed retelling of the Bretonnians' bold efforts to defend the Border Princes from evil invaders, culminating in an exciting narrative scenario to decide the fate of the town of Matorea.

Heroes of Legend: Background and rules for three famous characters: The Green Knight; Sir Cecile Gastonne, the Wyrmslayer; and Lady Élisée Duchard, Prophetess of Brionne.

Armies of Infamy: Rules to field two unique Bretonnian Armies of Infamy: Bretonnian Exiles and Errantry Crusades.

This is an expansion to *Warhammer: The Old World* – you'll need copies of the *Warhammer: The Old World Rulebook* and *Warhammer: The Old World – Forces of Fantasy* books, both available separately, to use the contents of this book.
