Product description

Arcane Journal: Tomb Kings of Khemri

This supplement takes an in-depth look at the Land of the Dead, exploring the traditions and beliefs of this horrifying realm of cadaverous kings and their skeletal subjects. Used in conjunction with Warhammer: The Old World – Ravening Hordes, this book arms you with more rules and tales, allowing you to use your Tomb Kings of Khemri collection in new and exciting ways.

Within this 48-page supplement book, you will find:

The Land of the Dead: A detailed look at ancient Nehekara: its great cities, the military might of its ancient kings and queens, and the immortal power of the Mortuary Cult.

Conflict in the Badlands: An in-depth look at the Mortuary Cult at war, telling of the quest to find the resting place of an ancient king, culminating in a vicious battle with the denizens of the Badlands.

Heroes of Legend: Background and rules for three famous characters: Settra the Imperishable; Prince Apophas, the Cursed Scarab Lord; and Nekaph, Emissary of Settra.

Armies of Infamy: Rules to field two unique Tomb Kings Armies of Infamy: Nehekharan Royal Hosts, and Mortuary Cults.

This is an expansion to Warhammer: The Old World – you'll need copies of the *Warhammer: The Old World Rulebook* and *Warhammer: the Old World – Ravening Hordes* books, both available separately, to use the contents of this book.
