Manufacturer	<b>Games Workshop</b>

### Product description

## Astra Militarum: Scout Sentinel

This multipart plastic kit builds one Scout Sentinel – a light walker toting heavy firepower on an agile chassis. There are loads of options in the kit, allowing you to arm your Sentinel for any battlefield role with an autocannon, heavy flamer, missile launcher, multi-laser, or plasma cannon. You can additionally equip your walker with a poseable Sentinel chainsaw for more melee punch, and a hunter-killer missile for extra firepower. You'll also find plenty of cosmetic options, including a searchlight and smoke launchers, stowage and spare equipment racks, extra fuel canisters, and four different heads for the exposed pilot.

This kit can alternatively build an Armoured Sentinel with an enclosed cockpit, which trades speed for extra durability in the harshest warzones.

This kit comprises 91 plastic components and is supplied with 1x Citadel 80mm Round Base. Also included is an Astra Militarum Vehicle Transfer Sheet, with 475 transfers featuring numerals, sigils, and a variety of regimental heraldry. This miniature is supplied unpainted and requires assembly – we recommend using Citadel Plastic Glue and Citadel Colour paints.
