Product description

Awakened Wyldwood

The Awakened Wyldwood is perfect for adding interest and thematic depth to your battlefields. Each tree is designed with a special modular base that allows you to use them on their own as scatter terrain, or together as a tactical gaming piece. Care has been taken to ensure that even the densest of Wyldwoods are easy to use in game and won't obstruct play, measurements or errant dice rolls.

This kit is supplied in 42 plastic components and builds one Awakened Wyldwood, consisting of three customisable trees.
