- Malicious artwork depicting the grots, as well as their arachnoid allies, squig pets, and troggoth muscle
- 43 warscrolls and pitched battle profiles for your grots, from swift Snarlfang Riders to massive Dankhold Troggoths and the cunning Squigboss
- Rules for the five most infamous Gittish Hordes, plus command traits, artefacts of power, spell lores, and battle traits like Under the Light of the Bad Moon and Beasts of the Loonlairs
- Path to Glory campaign rules that send you exploring the Mortal Realms for mushrooms to make powerful new fungus brew, plus a new battleplan and eight warscroll battalions for use in narrative play
- Matched play content, including four grand strategies, six battle tactics, and a core battalion representing brutish troggherds
- An inspirational gallery of Gloomspite Gitz miniatures, with painting guides to get your collection ready for the tabletop
