Product description

Battlezone: Fronteris – Nachmund

Battlezone: Fronteris – Nachmund is a scenery expansion set for Warhammer 40,000, comprising a range of terrain pieces to populate immersive battlefields inspired by the fortified border worlds found across War Zone Nachmund. The varied assortment of modular barricades and Imperial structures make it an excellent way to start or expand your terrain collection – and will also save you money compared to buying the contents individually.

Suggested terrain traits and additional Narrative Play abilities for these terrain pieces can be found in War Zone Nachmund: Vigilus Alone, adding further strategic depth to your games.

This kit is comprised of 119 plastic components, with which you can build:

- 2x STC Hab-bunker
- 6x Stockades
- 2x Stockade with Doors
- 1x Landing Pad
- 1x Vox-Antenna
- 1x Auspex Shrine

The set also includes two double-sided folding gaming boards measuring 30" x 22.4", allowing you to build a battlefield suitable for Combat Patrol or Incursion games of up to 1000 points in Warhammer 40,000. These durable boards depict the debris-strewn wasteland of the Imperial frontier on each side, and can be combined with other gaming boards to create battlefields of any size.

These miniatures are supplied unpainted and require assembly – we recommend using Citadel Plastic Glue and Citadel paints.
