Manufacturer	Games Workshop

Product description

Battlezone: Fronteris - STC Hab-Bunker and Stockades

Build an immersive battlefield and wage war on a hotly contested frontier world with terrain pieces representing rugged Imperial structures – such as the STC Hab-bunker and Stockades. These armoured structures are an everyday sight amongst the brutal architecture of an Imperial border world, but become a vital source of cover when war envelops the planet. The STC Hab-bunker is particularly well-suited to sheltering fighters from the hazardous atmospheric conditions common to the frontier.

Suggested terrain traits and additional Narrative Play abilities for these terrain pieces can be found in War Zone Nachmund: Vigilus Alone, adding further strategic depth to your games.

This kit is comprised of 38 plastic components, with which you can assemble one STC Hab-bunker, one Stockade with doors, and three Stockades. The modular nature of the kit allows for a variety of other build options – such as a one long Stockade wall integrated into the STC Hab-bunker, or an enclosed Stockade fort.

These miniatures are supplied unpainted and require assembly – we recommend using Citadel Plastic Glue and Citadel paints.
