Boarding Patrol: Chaos Daemons miniatures set

The daemonic servants of Khorne spill from the madness of the warp to corrupt and slaughter, seeking worthy prey on which to slake their endless rage. The confines of a voidborne vessel or ancient space hulk are no defence against their depredations – when Geller fields fail, entire hulls contort and deform at the touch of Chaos. Tearing through to realspace, the daemonic legions of the Blood God lay waste to whole crews in their gruesome quest to drown the stars in blood.

Boarding Patrol: Chaos Daemons provides a melee-focused force of Khornate daemons, perfectly suited to ripping foes limb-from-limb in games of Warhammer 40,000 – especially in the dense and deadly Boarding Action missions detailed in the Arks of Omen series – and will save you money compared to buying the kits individually.

Led by the ever-hungry Karanak, the Hound of Vengeance – the physical manifestation of the Skull Throne's wrathful spite – two packs of five Flesh Hounds race through winding corridors, following the soul-scent of their hapless prey. In their wake follow 10 Bloodletters, the footsoldiers of Khorne, driven by frenetic bloodlust and an unparalleled killing instinct as they cut down enemies in close quarters.

This set includes the following:

- 1x Karanak, The Hound of Vengeance
- 10x Flesh Hounds
- 10x Bloodletters

This box can be used to assemble a variety of units – the recommended build for Boarding Action games is Karanak, two units of five Flesh Hounds, and a unit of ten Bloodletters.

All models are supplied with their appropriate bases. These miniatures are supplied unpainted and require assembly – we recommend using Citadel Plastic Glue and Citadel Colour paints.

Rules for playing Boarding Action games of Warhammer 40,000 can be found in the Arks of Omen: Abaddon supplement. Additional rules for Chaos Daemons Boarding Patrols can be found in Arks of Omen: Vashtorr.
