Product description

Chaos Space Marines: Chaos Cultists

This multipart plastic kit builds 10 Chaos Cultists, each equipped with some combination of autopistol, brutal assault weapon, frag grenades, and Krak grenades. These models boast all manner of twisted details, from Chaos symbols and pendants to daemoniac masks and robes, with scavenged weapons ranging from crude bionics to vicious machetes. The kit includes two Cultists that can alternatively be built as Cultist Champions – a mutated female Cultist Champion with a bare, horned head and a tentacled arm wielding a chainsword, or a male Cultist Champion with a ragged mask and a bolt pistol.

This set comprises 41 plastic components and is supplied with 10x Citadel 25mm Round Bases. These miniatures are supplied unpainted and require assembly – we recommend using Citadel Plastic Glue and Citadel paints.

These models are designed to be visually compatible with the Cultists of the Abyss set, allowing you to expand your Cultist Mob with even more models and ranged weapon options.
