Product description

Chapter Approved: War Zone Nachmund Grand Tournament Mission Pack and Munitorum Field Manual 2022

This edition of Chapter Approved is the essential gaming toolbox for all fans of Warhammer 40,000 matched play. Whether you're a tournament regular or simply like to ensure your battles are always fought on an even footing, this is the essential supplement for matched play games of Warhammer 40,000. **Inside this 56-page softback book, you'll find:**

- Two mission packs, comprising nine missions each for Incursion and Strike Force battles, each designed to offer a different challenge to the players.
- Guidelines for setting up and playing a matched play or Grand Tournament-level competitive game, including suggested battlefield size, time limit and how best to determine secondary objectives.
- 23 secondary objectives. Some are entirely new, while others have been tweaked, or had the amount of victory points they award adjusted.
- And much, much more...

In addition, you'll also find a separate 56-page book – the Munitorum Field Manual 2022 – containing all the latest matched play points updates, painstakingly balanced and tuned in conjunction with major tournament organisers and our playtesters.

Whether you're looking to take your matched play gaming to a whole new level or are wanting to stay on the pulse with all the latest points value developments for every faction, Chapter Approved has something for you, and is a fitting guide to the incredible new edition of Warhammer 40,000.
