Manufacturer	Games Workshop

Product description

Citadel Colour Painting Handle

By removing much of the bulk in the spring-loaded upper clasp, it's easier than ever to reach all around – and under – your models. The grip is more ergonomic, sitting comfortably in your palm for fatigue-free marathon painting sessions. The redesigned shape of the base improves the balance and distribution of weight, allowing us to make it even taller while reducing accidental knock-downs.

The painting handle holds 25mm, 28mm, 32mm and 40mm bases.

If you love using your painting handles, you'll love these even more.
