Product description

Citadel Tools: Mouldline Remover

The incredibly popular mouldline remover has been redesigned by the Citadel Tools team to be more useful than ever. This version of the Mouldline Remover includes a number of improved features:

- Longer and thinner nose, roughly half the size of the previous version, reaches every nook and cranny while increasing visibility and precision
- Ergonomic handle is tapered in the front, allowing you to change to a pencil-like control grip for fine work, with a chunky base to allow greater comfort and reduce hand fatigue during normal use
- Notched back designed to clean up the tapered edges of your bases, making it quick and easy to get a paint-ready finish
