Product description

Cities of Sigmar: Freeguild Fusiliers

This multipart plastic kit builds 10 Freeguild Fusiliers, accompanied by a Blackpowder Squire. Each Fusilier carries a huge pavise shield, on which they mount a fusil-cannon tipped with a bayonet. You can build one model as a Fusil-Sergeant, armed with either a brace of pistols or a triple-barrelled slaughter-fusil, and another model as a Fusilier Herald, who carries a standard and torch with a choice of icons and flames. The accompanying Blackpowder Squire runs up and down the firing line, supplying shot and powder wherever it's needed.

The kit includes plenty of different poses, heads, and shield designs, all of which are interchangeable between models, plus two curious gargoylian creatures – you'll be able to keep your Freeguild forces distinct and varied, no matter how many Fusiliers you recruit.

This kit comprises 115 plastic components, and is supplied with 10x Citadel 28.5mm Round Bases and 1x Citadel 25mm Round Base. Also included is a Cities of Sigmar Transfer Sheet, featuring 410 Free City icons, Sigmarite cult sigils, and other forms of heraldry.

These miniatures are supplied unpainted and require assembly – we recommend using Citadel Plastic Glue and Citadel Colour paints.
