Manufacturer	Games Workshop

Product description

Cities of Sigmar: Ironweld Great Cannon

This multipart plastic kit builds an Ironweld Great Cannon – a powerful war machine fielded by the Cities of Sigmar. This huge gun is mounted in a sturdy, wheeled wooden frame with a winch arm, locked in place by chains, ropes, and hammered posts. The Great Cannon is crewed by a pair of artilleryists from the Ironweld Arsenal, who both offer different assembly options for their pose, heads and arms, ensuring you can build a varied battery of big guns.

You'll also find plenty of optional basing elements to customise your Great Cannon, including a spare taper, a discarded hammer, stacked ammunition, and loose rounds representing three specialist payloads – cannonball, grapeshot and an armour-piercing shell.

This kit comprises 61 plastic components, and is supplied with a Citadel 90mm Round Base. Also included is a Cities of Sigmar Transfer Sheet, featuring 410 Free City icons, Sigmarite cult sigils, and other forms of heraldry.

This miniature is supplied unpainted and requires assembly – we recommend using Citadel Plastic Glue and Citadel Colour paints.
