Codex Supplement: Salamanders

The Salamanders are among the noblest of the Adeptus Astartes, fighting without hesitation to defend those who cannot protect themselves. Yet this empathy belies an incredible determination in battle, for the Salamanders are masters of fire and fury, armed with masterwork wargear forged by their most skilled artificers. In this 64-page hardback codex supplement, you'll find everything you need to unleash the Salamanders in battle, plus thrilling lore and art to inspire your own collection.

Inside this book, you'll find:

- The history of the Salamanders, and how they unleash the molten fury of their volcanic world upon their foes with their devastating artisan wargear
- A detailed description of Chapter organisation and iconography
- A Salamanders bestiary with a detailed background for Forgefather Vulkan He'stan and Captain Adrax Agatone of the 3rd Company
- Rules for Vulkan He'stan and Captain Agatone
- A showcase of stunningly painted Citadel miniatures
- Stratagems, Warlord Traits, Tactical Objectives, Relics of Nocturne, the Promethean discipline, defining the ways that the Salamanders wage war
- And more!

You will need a copy of Codex: Space Marines and the Warhammer 40,000 rulebook to use the rules included in this codex supplement.
