Manufacturer	<b>Games Workshop</b>

### Product description

## Daemons of Nurgle: Horticultural Slimux

This multi-part plastic kit contains the components necessary to assemble Horticultural Slimux. Festooned with grimly jolly detail, this is a model with many, many points of interest – Horticultural himself is a manic-looking chap, spindly yet muscular, with an enormous eye in the centre of his head. He's clutching his enormous lopping shears, which are used both to tend to his garden and execute enemies, and carries a host of plants, potions, fertilisers and mushrooms, all for later planting. Mulch, his massive snail-like steed, drags his Grundleplough behind him, attached to his shell with 3 chains. A Nurgling is lashed to a rod, dangling in front of Mulch's face, encouraging him to lurch ever forward in hope of a tasty snack – the Nurgling appears to find this hilarious!

This model comes as 32 components, and is supplied with a Citadel 105x70mm Round base. Horticultural Slimux can be added to both Warhammer 40,000 and Warhammer Age of Sigmar armies.
