Product description

Daemons of Slaanesh: The Masque

Few warriors can keep up with the lightning-swift attacks of The Masque! This combat-focused character excels at downing slower foes, capable of crossing vast distances rapidly and striking where they're most effective. Whether you're stalking your prey across the war-torn battlefields of the 41st Millennium or striking out in the Mortal Realms, you'll find The Masque perfect for picking off enemy heroes and support units.

This kit is supplied in 10 plastic components, including a choice of masks for the Staff of Masks. It is supplied with a 32mm round base.
