Product description

Daemons of Tzeentch: Lord of Change

This multi-part plastic kit contains the components necessary to assemble a Lord of Change. A huge, imposing model, he makes an ideal centrepiece for any Tzeentchian army, covered as he is in the symbolism of Tzeentch that marks him out as a true master of magic. His enormous wings can be modelled in 2 different positions, and he features a choice of 3 different, sinister heads. He wields a staff of Tzeentch, which can be topped with either a symbol of Tzeentch or a flame blade; or can alternatively wield a baleful sword and Tzeentchian wand. He is accompanied by 2 Brimstone Horrors, which can be added to his base.

This kit is supplied as 72 components, and includes a Citadel 100mm Round base.

This kit can alternatively be used to assemble Kairos Fateweaver.
