Product description

Endless Spells: Beasts of Chaos

This multi-part plastic kit contains the components necessary to assemble 3 Endless Spells usable by Beasts of Chaos wizards in games of Warhammer Age of Sigmar. When used with the Malign Sorcery rules, these can be incredibly powerful tools in your magical arsenal. Included:

- A Wildfire Taurus: a gargantuan flaming bull which stampedes through enemies without breaking stride, setting flesh ablaze and crushing those not consumed by the conflagration;
- A Doomblast Dirgehorn: animal bones drawn out from the earth and fused into the shape of a giant horn which blasts a dolorous dirge capable of stripping the minds of those within earshot;
- A Ravening Direflock: this is a murder of 6 spectral crows, circling the battlefield and harrying those who try to flee the carnage with unending, dispiriting caws.

This kit comes as 25 components supplied on brown-coloured plastic, and includes 4 Citadel 40mm Round bases and a Citadel 70mm Oval base. Warscrolls are found in Battletome: Beasts of Chaos.
