Product description

Genestealer Cults: Achilles Ridgerunner

Achilles Ridgerunners are fast-moving buggies capable of carrying a significant amount of ordnance. They can also operate as a vital support vehicle for units of Atalan Jackals, giving that unit even more manoeuvrability. Equipped with two heavy stubbers, it can also take either a heavy mining laser, a heavy mortar or a missile launcher, providing any Genestealer Cults player with useful toolbox for dealing with any enemy.

This pack contains a single plastic Achilles Ridgerunner armed with two heavy stubbers, and a choice of either a heavy mining laser, a heavy mortar, or a missile launcher. It comes with a host of other options and optional wargear, and a single 120mm oval base.
