Product description

Genestealer Cults: Atalan Jackals

This set builds one squad of 5 Atalan Jackals – four on dirtcycles, accompanied by an Atalan Wolfquad. You'll be able to customise your squads with a host of melee weapons, blasting charges and ranged weapons, letting you kit the unit out for a range of battlefield roles. Likewise, the Wolfquad features options for a mining laser, Atalan incinerator or heavy stubber, offering you even more flexibility. All arms in the kit are interchangeable with one another, and you'll have a huge choice heads and accessories to individualise your models.

This kit is supplied in 89 plastic components and contains 4x 60mm oval bases and 1x 60mm round base.
