### Product description

## Gloomspite Gitz: Squigboss with Gnasha-squig

This multipart plastic kit builds a Squigboss with Gnasha-squig – a nasty little grot accompanied by a fang-filled familiar. The Squigboss is armed with a vicious squig-krook which they use to prod squigs and enemies alike into submission, and wears a fancy armoured face-plate – matching their very angry Gnasha-squig! This squiggly strategist uses their mastery of mushrooms to keep squigs fed and frenzied, with a handy shroom-satchel slung around their back and stuffed with fungus.

This kit comprises 11 plastic components, and is supplied with a Citadel 32mm Round Base. This miniature is supplied unpainted and requires assembly – we recommend using Citadel Plastic Glue and Citadel Colour paints.
