Product description

Gloomspite Gitz: Trugg the Troggoth King

This multipart plastic kit builds Trugg the Troggoth King – an overgrown brute empowered by ancient magics and sheer grumpiness. Trugg is covered in ritual scars, tangled vines, and decaying relics from his long slumber in the caves of Ghyran, and imposing antlers curl out from his brow like a crown. The strange artefact built atop his hunched back crackles with otherworldly power – especially when Trugg smacks it with his club, which is capped with the shell of a massive ironshell snail.

Even crouching down under his arcane burden, Trugg is taller than a mighty Dankhold Troggoth – he's a monster truly worthy of the title 'Troggoth King'.

This kit contains 30 plastic components and comes with a Citadel 100mm Round Base. This miniature is supplied unpainted and requires assembly – we recommend using Citadel Plastic Glue and Citadel Colour paints.
