### Product description

## Idoneth Deepkin: Volturnos, High King of the Deep

This multi-part plastic kit contains the components necessary to assemble Volturnus, High King of the Deep. Very much prepared for war, he wears splendid, heavy plate armour – of particular note are the leg and shoulder coverings, which extend far further than his actual shoulders, providing support for the enormous, wide cloak which billows outward and downward, featuring Idoneth symbols at the edges. In his gauntleted right hand he holds the Astra Solus, a wicked-looking serrated blade, and in the left hefts Cealith, the High King's shield. Above his shaved head (complete with eyepatch!) is the Crest of the High Kings – a tall, majestic banner with carved metal Idoneth symbols and a large jewel featuring prominently. His mount, Uasall, is a Deepmare of renown – a massive, scaled creature whose forelegs end in huge talons and whose rear half splits into 3 powerful tails, distinguishable from other Deepmares by his larger piercing horn. An aelven waystone is included as an atmospheric piece of detail for the base.

This kit comes as 45 components, and is supplied with a Citadel 60mm Round base. The kit can optionally be used to assemble an Akhelian King.
