## Product description

# Imperial Knight Warden

This is a serious, serious bit of kit! Everything you need in order to build one Imperial Knight Warden is included in this box; one complete 147-component Imperial Knight kit and this seventy-four-component upgrade kit. It features three completely new faceplates, a new tilting plate/shield, a set of new Adeptus Mechanicus icons and a frankly insane amount of weaponry: a chest pintle Meltagun, a gatling cannon assembly (with heavy flamer), the infamous Reaper chainsword, a thunderstrike gauntlet, a thermal cannon and a rapid-fire battle cannon - on top of this there are carapace options including rocket pods, missile pods and an anti-air twin Icarus cannon.

This kit shares the impressive posing options with the standard Imperial Knight, with head, arm and waist joints, and can be built as a Knight Errant, Paladin, Warden, Gallant or Crusader - the weapons are all interchangeable and can be used with any other Imperial Knight models you might own.

In total, this multi-part plastic kit comes with 221 components and stands tall on a Citadel 170mm Oval Base.
