Manufacturer	Games Workshop

Product description

Imperial Knights: Armiger Warglaives

This multipart plastic kit builds two Armiger-class Knights – either Armiger Warglaives or Armiger Helverins. Armiger Helverins are a close-ranged Lords of War choice that can provide deadly melee support to your Imperial Knights army – or be taken as a wandering Freeblade squadron for other Imperium forces. Armed with a tank-melting thermal spear, infantry-shredding reaper chain-cleaver, and your choice of a carapace-mounted heavy stubber or meltagun, each Armiger Warglaive can be further customised with a variety of articulated poses, armour plating, and six unique faceplates, with large carapaces making for a perfect painting project. This kit can also be assembled as a pair of War Dog Executioners or War Dog Huntsmen for Chaos Knights armies.

This kit comprises 148 plastic components, and is supplied with 2x Citadel 100mm Round Bases. Also included is an Armiger transfer sheet, featuring heraldry for Imperial Knights. These miniatures are unpainted and require assembly – we recommend using Citadel Plastic Glue and Citadel paints.
