Manufacturer	Games Workshop

Product description

Kill Team: Gellerpox Infected

This multipart plastic kit allows you to build 23 Gellerpox Infected, a warp-plagued horde of disgusting daemons and mutated mortals. These miniatures can be used as Gellerpox Infected operatives in games of Kill Team, and every model in this sickening set is unique – it includes the bloated Vulgrar Thrice-cursed and his three Nightmare Hulks, four mischievous Glitchings, and three shambling Gellerpox Mutants, as well as 12 Mutoid Vermin – Cursemmites, Eyestingers, and Sludge-Grubs – that can accompany the Gellerpox Infected in battle.

This set comprises 47 plastic components and is supplied with 4x Citadel 40mm Round Bases, and 25x Citadel 25mm Round Bases. These miniatures are supplied unpainted and require assembly – we recommend using Citadel Plastic Glue and Citadel Colour paints.
