## Product description

# Kill Team: Hierotek Circle

This multipart plastic kit builds a Hierotek Circle of eight Necron models – a full Kill Team of calculating mechanical acquiritors. This set includes a Cryptek Technomancer to lead their minions, a Plasmacyte Accelerator and Reanimator to enhance and repair the Circle's fighters, and five Necron soldiers which can be built as sniping Deathmarks or relentless Immortals – the kit also includes components to upgrade one Immortal into a disciplined Despotek enforcer, and another into an arcane Apprentek assistant.

This set comprises 125 plastic components, and is supplied with 1x Citadel 50mm Round Base, 2x Citadel 25mm Round Bases, and 5x Citadel 32mm Round Bases. These miniatures are supplied unpainted and require assembly – we recommend using Citadel Plastic Glue and Citadel Colour paints.
