Product description

Kill Team: Imperial Navy Breachers

This multipart plastic kit builds a squad of 10 Imperial Navy Breachers accompanied by two robotic supporters – the scanning C.A.T. Unit and explosive Gheistskull. These miniatures can be used as Imperial Navy Breacher operatives in games of Kill Team, or fielded with any Imperium army in games of Warhammer 40,000. These hardy troops are armed with short-range boarding weaponry, including hatchets and powerful shotguns. The kit includes loads of interchangeable heads and accessories to customise your kill team, plus components to build specialists like the skilled Void-jammer, bulky Grenadier, shield-toting Endurant, and more.

This set comprises 153 plastic components, and is supplied with 10x Citadel 25mm Round Bases and 2x Citadel 28.5mm Round Bases. These miniatures are supplied unpainted and require assembly – we recommend using Citadel Plastic Glue and Citadel Colour paints.
