## Product description

# Kill Team: Kasrkin

This multipart plastic kit builds a squad of 10 Kasrkin, Cadia's unmatched special forces. These miniatures can be used as Kasrkin operatives in games of Kill Team, or fielded with Astra Militarum armies in games of Warhammer 40,000. These highly-trained soldiers are armed with hot-shot lasguns fuelled by a back-mounted power-pack, and can be equipped with a variety of special weapons - including grenade launchers, hot-shot volley guns, and meltaguns. The kit includes loads of interchangeable heads and accessories to customise your kill team, plus components to build specialists like the camouflaged Sharpshooter, stimm-wielding Combat Medic, explosive Demo-trooper, and more.

This set comprises 166 plastic components, and is supplied with 10x Citadel 28.5mm Round Bases. Also included is a Cadian Infantry Transfer Sheet, with 597 transfers featuring numerals, squad markings, and Cadian regimental heraldry. These miniatures are supplied unpainted and require assembly - we recommend using Citadel Plastic Glue and Citadel Colour paints.
