EAN	5011921202911
Manufacturer	Games Workshop

Product description

Knights Houses: Cerastus Knight Acheron

This multipart plastic kit builds one Cerastus Knight Acheron – a terrifying war engine that reduces all opposition to ashes. Even taller than its Questoris-class cousins, the Knight Acheron strides across the battlefield unleashing bursts of baleful fire from its arm-mounted flamestorm cannon and shredding tougher enemies with blows from its wicked reaper chainfist.

This detailed model is highly customisable, with joints in its ankles, knees, hips, head, arms, and waist allowing you to create your own dynamic pose. Its head and arms also offer glueless assembly options to adjust their position mid-game. The kit includes a variety of cosmetic options, including two variant designs for kneepads and greaves, and four hull-mounted icons – one each for Loyalist, Traitor, Mechanicum, and Questoris Household Knights. You can also build the Knight with an open hatch, revealing the seated pilot within.

This kit comprises 253 plastic components, and comes with a Citadel 170x109mm Oval Base. It also includes an Age of Darkness Cerastus Knight Transfer Sheet, containing 517 optional markings and icons for the Knight Households of the Horus Heresy. This miniature is supplied unpainted and requires assembly – we recommend using Citadel Plastic Glue and Citadel paints.
