EAN	5011921201365
Manufacturer	Games Workshop

Product description

Knights Houses: Cerastus Knight Castigator

This multipart plastic kit builds one Cerastus Knight Castigator – a lofty war engine that devastates enemies at any distance. Even taller than its Questoris-class cousins, the Knight Castigator strides across the battlefield to deliver a roaring fusillade of shots from its arm-mounted bolt cannon, then moves in to slice through enemy armour with its crackling tempest warblade, which is as long as a Rhino armoured personnel carrier.

This detailed model is highly customisable, with joints in its ankles, knees, hips, head, arms, and waist allowing you to create your own dynamic pose. Its head and arms also offer glueless assembly options to adjust their position mid-game. The kit includes a variety of cosmetic options, including two variant designs for kneepads and greaves, and four hull-mounted icons – one each for Loyalist, Traitor, Mechanicum, and Questoris Household Knights. You can also build the Knight with an open hatch, revealing the seated pilot within.

This kit comprises 247 plastic components, and comes with a Citadel 170x109mm Oval Base. It also includes an Age of Darkness Cerastus Knight Transfer Sheet, containing 517 optional markings and icons for the Knight Households of the Horus Heresy. This miniature is supplied unpainted and requires assembly – we recommend using Citadel Plastic Glue and Citadel paints.
