### Product description

## Legiones Astartes: Legion Praetor with Power Axe

This multipart plastic kit builds one Legion Praetor, wielding a menacing two-handed power axe with a deadly archaeotech pistol hanging from his belt. This intimidating figure is clad in heavily modified Mark VI power armour, covered in ornate details and honours befitting of his rank, and wears a sweeping cape with a sculpted rim – topped by an iron halo resembling a trophy rack. The kit includes a choice of two heads – a beaked helmet with a crest of spikes, or a bare head sporting a glorious topknot. This model makes for an incredible painting project, festooned with decorative elements and opportunities for showcasing various textures and materials.

This kit comprises 27 plastic components, and is supplied with a Citadel 40mm Round Base. Also included is a Legiones Astartes Infantry Transfer Sheet containing 339 optional markings and icons for the Sons of Horus and Imperial Fists Legions. This miniature is supplied unpainted and requires assembly – we recommend using Citadel Plastic Glue and Citadel paints.
