Product description

Legions Imperialis: Civitas Imperialis Administratum Sector

This multipart plastic kit builds a set of epic scale buildings, designed for use in games of Legions Imperialis and Adeptus Titanicus. This modular set can be arranged and stacked in a variety of configurations – dozens of small buildings, all the way up to several towers large enough to provide cover for a Warlord Titan.

Included:

- 4x sets of Civitas Imperialis terrain
- 1x set of Civitas Imperialis Spires terrain

These miniatures are supplied unpainted and require assembly – we recommend using Citadel Plastic Glue and Citadel Colour paints.
