Product description

Legions Imperialis: Legiones Astartes Support

This multipart plastic kit builds 24 epic scale Legiones Astartes miniatures, split over 16 bases. You'll find Leviathan and Deredeo Dreadnoughts sporting a variety of powerful weapons, alongside Rapier and Tarantula heavy weapons platforms. Add these support detachments to ensure your army punches above its weight, ready to take on some of the toughest targets in the Age of Darkness.

The set includes 24 miniatures, split across the following:

- 2x Leviathan Siege Dreadnoughts with Cyclonic Melta Lance
- 2x Leviathan Siege Dreadnoughts with Leviathan Storm Cannon
- 2x Deredeo Dreadnoughts with Anvilus Autocannon Battery
- 2x Deredeo Dreadnoughts with Hellfire Plasma Cannonade
- 2x Legion Rapier with Laser Destroyer Array
- 2x Legion Rapier with Quad Launcher
- 2x Legion Tarantula with Tarantula Lascannon Battery
- 2x Legion Tarantula with Hyperios Air-defence Missile Launcher

The miniatures in this kit are supplied unassembled and unpainted – we recommend using Citadel Plastic Glue and Citadel Colour paints.

Rules for using Legiones Astartes Support Detachments can be found in *Warhammer: The Horus Heresy – Legions Imperialis Rulebook*, which is available separately.
