Product description

Legions Imperialis: Questoris Knights

This multipart plastic kit builds three epic scale Questoris Knights. Each of these machines can be armed with a variety of destructive weapons, from reaper chainswords and thunderstrike gauntlets for close combat, to thermal cannons, rapid fire battlecannons, avenger gatling cannons, rocket pods, and a choice of hull-mounted heavy stubbers and meltaguns. Each of these options allows you to use your Knights differently in battle, stripping shields from enemy Titans, hunting opposing Knights, or demolishing enemy infantry and armour.

These models can be used in games of Legions Imperialis, as well as games of Adeptus Titanicus using the included Adeptus Titanicus Command Terminal.

The set includes:

- 1x rapid fire battlecannon with heavy stubber
- 1x thermal cannon
- 1x avenger gatling cannon
- 3x left-handed thunderstrike gauntlets
- 3x right-handed thunderstrike gauntlets
- 3x rocket pods
- 3x reaper chainswords
- 3x heavy stubbers
- 3x meltaguns
- 6x heads
- 3x tilting plates
- 3x Legions Imperialis 40mm Round Bases
- 1x Adeptus Titanicus Knight Houses transfer sheet
- 1x Adeptus Titanicus Questoris Knight Command Terminal

These miniatures are supplied unpainted and require assembly - we recommend using Citadel Plastic Glue and Citadel Colour paints.

Please note that the bases in this kit may differ from those shown in product imagery.
