Product description

Legions Imperialis: Warlord Titan with Power Claw and Plasma Annihilator

This multipart plastic kit builds one epic scale Warlord Battle Titan. This variant is armed for mid-range combat, boasting an arm-mounted sunfury plasma annihilator, an Arioch power claw, and a set of carapace-mounted laser blasters. In addition to its primary weapons, the Warlord also features two torso-mounted mauler bolt cannons and a pair of rear-mounted lascannon turrets.

This kit offers plenty of ways to customise your Titan. You'll find two different faceplates and two different sensor arrays for the head, as well as three pairs of pauldrons – one with sculpted Great Crusade designs, one with Traitor imagery, and one left blank. The kit features joints at various points, allowing you to pose your Titan at its head, knees, waist, and more. Its weapons are also adjustable, so you can aim them appropriately.

This model can be used in games of Legions Imperialis, as well as games of Adeptus Titanicus using the included Adeptus Titanicus Command Terminal.

The set includes:

- 1x Warlord Battle Titan
- 1x sunfury plasma annihilator
- 1x Arioch power claw
- 1x set of paired laser blasters
- 1x Legions Imperialis 120mm Oval Base
- 1x Adeptus Titanicus Warlord Titan Transfer Sheet
- 1x Adeptus Titanicus Warlord Titan Command Terminal
- 7x Warlord Titan Weapon Cards

This miniature is supplied unpainted and requires assembly – we recommend using Citadel Plastic Glue and Citadel Colour paints.
