Product description

Leman Russ, Primarch of the Space Wolves

Leman Russ is here depicted wielding the ancient sword Mjølner, and the great frost axe Helwinter, its murderous edge made with the kraken-teeth of a mighty beast Russ slew himself. His warplate is a suit of singular artificer power armour, incorporating unique exothermic field generators, otherwise unknown in the Imperium's arsenal of technology. He's depicted charging to battle through the ruins of Prospero, featuring icons of the Thousand Sons Legion, with a larger removable scenic base.

The Primarch of the Space Wolves is supplied in 26 resin components. He's supplied with a 40mm gaming base, which slots into an 80mm display base.

Rules for Leman Russ in your games of Warhammer: The Horus Heresy can be found in Liber Astartes – Loyalist Legiones Astartes Army Book. This miniature is supplied unpainted and requires assembly – we recommend using Citadel paints.

This resin modelling kit is not a toy – it is a collectible item and construction should only be undertaken by expert Warhammer hobbyists aged 15 years and over.
