Product description

Necrons: Canoptek Doomstalker

Need something blown up? Chances are, the Canoptek Doomstalker is the construct for the job! This towering sentry will make short work of your enemies, blasting them to bits with its terrifying doomsday blaster. It's also an incredible defensive choice, laying down covering fire when its neighbouring units are fired upon.

This kit builds one Canoptek Doomstalker, and push-fit construction means you won't need glue to build it. It is supplied in 14 plastic components and comes with a 90mm round base.
