Manufacturer	Games Workshop

Product description

Necrons: Overlord with Translocation Shroud

This multipart plastic kit builds a Necron Overlord with a translocation shroud, an artefact of arcane dimensional science. He's depicted phasing through space itself, and portions of his body and wargear are already dematerialised into streamers of energy that swirl around him. One of his folded arms carries a deadly hyperphase blade, while the other clutches a resurrection orb. His metallic body is covered in Necrontyr glyphs, as well as mechanical details such as the power nodes that fuel the translocation shroud.

This kit comprises five plastic components and comes with a Citadel 40mm Round Base. This miniature is supplied unpainted and requires assembly – we recommend using Citadel Plastic Glue and Citadel Colour paints.
