Manufacturer	Games Workshop

Product description

Nighthaunt: Keldrek, Knight of Shrouds

This multi-part plastic kit contains the components necessary to assemble Keldrek, Knight of Shrouds. Little more than an empty, ragged shroud, this is an especially sinister character, entirely appropriate for a Death collection. Only a few indicators of the malevolent spirit within exist – the large winged helm, from which nothing but empty space peers out, and the thin, ghostly arms that emerge from either side. The right arm holds the Sword of Stolen Hours, a horrifying artefact as long as a man is tall which extends Keldrak's un-life with every enemy it slays, while the left clutches its scabbard; each of these items is notched and decayed through centuries of use. Hanging from where Keldrak's neck should be is an hourglass, a bleak reminder of his immortality. His base features a section of ruined wall, the spiked fence of which Keldrek is floating over.

Keldrek comes as 5 components, and is supplied with a Citadel 32mm Round base.
